

EcoPure™ EP70 Washroom Cleaner

DESCRIPTION

EP70 Washroom Cleaner is a concentrated washroom general purpose cleaner for removal of soap scum, sultan and body oils/lotions, mildew, lime, water scale and rust deposits on porcelain, porcelain enamel, painted surfaces, aluminium, stainless steel, tile, ceramic tile and fibreglass surfaces.

IDEAL FOR USE IN...

It will remove unpleasant odours including urine and mildew from porous surfaces like floors and walls.

PACKAGING:

- Available in the 4 X 1.8 L (Av-mixx) and in 4 X 4 L
- Primary package of EP70 is recyclable as defined by GS-37, CCD-146 and EP114.
- The corrugated carton used to transport this product is recyclable and made from 85% post consumer recycled materials.

SPECIAL FEATURES:

- Effective in cold water. Avmor recommends the use of cold water to save energy.
- All environmental, health and safety claims are 3rd party certified
- Concentrated to reduce waste and lower end use costs
- One 1.8L bottle of EP70 concentrate makes 124 bottles of ready-to-use when dispensed using Av-mixx dilution control system.
- Label is colour coded and uses a numbering system to help identify the product for safety and application purposes
- Colorants are food grade colorants. Colorants are added to help workers properly identify and differentiate cleaning products and help simplify the training process

EP70 IS SAFER FOR OUR PEOPLE AND OUR PLANET...
