

a.s.a.p.™

floor degreaser

TECHNICAL DATA SHEET

Packaging Code

4 x 1.8 L (4 x 0.48 US gal)	2091257001
4 x 3.78 L (4 x 1 US gal)	2091277001
18.93 L (5 US gal)	2091332001

Description:

BIOMOR A.S.A.P. is a revolutionary floor degreaser formulated mainly for food service areas. Using a proprietary blend of surfactants, bio-cleaning agents and lipase enzymes, this **NEW AND IMPROVED FORMULATION** penetrates into the microscopic pores of the surface, cracks, corners, grout and other crevices where soils become very difficult to remove in restaurant kitchens and dining areas. In order to maintain sustained effects, BIOMOR A.S.A.P. must be of regular maintenance; the bio-cleaning agents will cling to the floor surface preserving a long-term deep cleaning activity by digesting grease and organic based soils. Floors subjected to BIOMOR A.S.A.P. will see a significant reduction in slippage and the grout will be restored to its original appearance. Floors are not only rendered safer for employees and patrons, but the residual cleaning helps to digest odour-causing bacteria resulting in a more pleasant working environment. BIOMOR A.S.A.P. is to be used on hard surfaces, such as quarry tiles, ceramic, concrete floors as well as on resilient tiles.

Use Direction:

SHAKE WELL BEFORE USE.
DAILY FLOOR CLEANING

1. Dilute 1 part cleaner to 64 or 128 parts water (8-16 ml/l or 1-2 oz/US gal) depending on the soil.
2. Mop floor area.
3. Pick up excess solution.
4. You may also apply product "very wet" and let dry overnight.

HEAVY DUTY FLOOR CLEANING AND MAINTENANCE

1. Dilute 1 part cleaner to 32 or 48 parts water (30-45 ml/l or 4-6 oz/US gal).
2. Mop floor area, allowing 10 to 15 minutes dwell time.
3. Scrub the floor and pick up excess solution or let dry overnight.

Daily cleaning is required in order to maximize residual cleaning effects.
For more information, contact our Avmor representative.

Av-mixx Use Directions:

****Please note: To avoid excess foaming, place Av-mixx hose at the bottom of the spray bottle and/or bucket.**

SHAKE WELL BEFORE USE.

For general floor degreasing, using the Av-mixx dilution control system, fill either an autoscrubber or mop bucket using the high flow button (select button with the mop bucket icon). BIOMOR A.S.A.P. FLOOR DEGREASER will automatically be diluted at 1:128.

For heavy duty or shock treatment degreasing, using the Av-mixx dilution control system, fill a spray bottle using the low flow button (select button with the spray bottle icon). BIOMOR A.S.A.P. FLOOR DEGREASER will automatically be diluted at 1:64.

1. Mop or autoscrub floor area, allowing 5 to 10 minutes dwell time.
2. Pick up excess solution. Product may also be applied "very wet" and let dry overnight. For heavy duty applications, scrub the floor.

PRECAUTIONS FOR FOOD PLANTS: For non-food contact surfaces only. Avoid contamination of food during use. Use of this product in food processing or handling facilities requires that all food products and packaging materials be removed or protected prior to product use. Surfaces must be thoroughly rinsed with potable water after cleaning with this product. Do not store in food processing or food storage area.

Note:

The data presented herein is based on experiments and information believed reliable. However, we can make no guarantee on performance of, or results obtained through the use of the product herein described owing to varying conditions in laboratories and plants over which we have no control. Neither can any guarantee be given that the products or uses outlined will not infringe any existing patents.

Technical Specifications:

Appearance	Cloudy liquid
Colour	Beige
Odour	Odourless
Specific Gravity	1.00 – 1.02
pH	8.0 – 9.0
Microbial Specification	5.4 x 10 ⁷ CFU/ml (200 billion CFU/gal) CFU/ml = Colony forming units per milliliter

The product meets Environmental Choice's CCD-110 standard.
