Subject: Reference document of product safety at the recommended dilution

To whom it may concerns,

This letter is in response to your inquiry regarding products safety at the recommended dilution.

Avmor Ltd. only provides a safety data sheet for finished products as manufactured and sold. Avmor Ltd. has no control over the utilization and the dilution ratio of the finished products.

Based on this fact, Avmor Ltd. has decided to provide safety data sheets only for the concentrated product to protect our customers and the employees who manipulate them.

After evaluation of the classification under the Hazardous Products Regulations, Avmor Ltd. has decided to provide a product safety list.

Avmor Ltd recommends using the proper PPE (personal protective equipment) listed in the safety data sheet of the concentrated product during the dilution of the concentrated product.

For diluted product, Avmor Ltd recommends using the proper PPE listed in the table below.

If you have any questions or need more information, please feel free to contact us at (450) 629-3800 or 1-800-387-8074 or by email at support@avmor.com.

Sincerely,

Pierre-Luc Filiatrault
