# INFECTION PREVENTION AND CONTROL RECOMMENDATIONS

Proper cleaning and disinfecting is your best defense against the **CORONAVIRUS (COVID-19)**

## PROTECTIVE GEAR

1

**Personal Protective Equipment** including **disposable gloves, eye protection and appropriate facemasks** is strongly recommended while cleaning and disinfecting.

Wash your hands before gloving and after ungloving.

## PRE-CLEAN ALL SURFACES

2

**Clean first** with a **new or freshly laundered microfiber** and follow the **8 sides** to a cleaning microfiber to introduce **all 8 fresh sides** to the cloth while immersed in the cleaning/disinfecting solution.

A More Complete Clean

## DISINFECT

**Two step process**, meaning, **clean first then disinfect** is a best practice by organizations such as Provincial Infectious Disease Advisory Committee of Ontario: <https://www.publichealthontario.ca/-/media/documents/bp-environmental-cleaning.pdf>

3

Focus attention to **frequent or "high" touch points** such as **door handles, push bars of doors, restrooms surfaces etc.**

Basix kills *Human Coronavirus [VR-740]*. Germalin kills *Canine parvovirus*. EP66 and Sani Stuff kill *Adenovirus type 5*. Balance Plus kills *Feline Calicivirus*. As per Health Canada, these products are likely to kill the *SARS-COV-2* (the virus that causes *COVID-19*).

### PRODUCT INFORMATION

## HAND HYGIENE

### HAND WASHING USING SOAP AND WATER = BEST OPTION

Wash hands effectively with water for no less than **30 seconds**:  
<https://www.cdc.gov/handwashing/when-how-handwashing.html>

4

**IF NO ACCESS TO WATER, BEST TO USE A HAND SANITIZER:**  
**7T (Alcohol based) and Sanimor (non-Alcohol based) hand sanitizers.**
